HEED AND GET RICH.

WALLACE & THORNBURGH,

Real Estate, Mortgage Loans and Insurance,

HELENA, MONTANA.

To the Rich Who Wish to Become Richer, and to the Frugal Who, By Economy, Have Saved Small Sums of Money that They Wish to Increase, We Respectfully Submit the Following:

FACTS:

FACTS:

ONE OF HELENA'S MOST PROMINENT AND INFLUENTIAL citizens placed in our hands for investment in March, 1888, \$2,500. We purchased with this money lots in the Grand Avenue Addition, and a statement rendered August 1, 1889, shows a net profit of \$5,000.

A RAILROAD ENGINEER gave us in May last \$400 to invest in Helena Realty. We purchased four lots in the Flower Garden Addition. These lots were all sold by August 1, and the net profit to the investor was \$335.

A BOOK-KEEPER invested through us \$250 in two lots north of the railroads. This purchase was made in April last. The lots were sold through us in July. Net profit, \$165.

WE BUILT A DWELLING on the East Side for a gentleman seeking a permanent investment, and upon the completion of the house leased it for him. This investment yields over 20 per cent. net per annum. The above facts are only a few of many such instances.

FINALLY, we handle entire additions and put improvements upon

the property we handle. The total number of houses we have built since January 8, 1889, together with those now under contract, amounts to 95. The prospects of Helena to-day are far brighter than they have ever been, hence the opportunities for profitable investment were never better.

WE APPEND a few of the most promising investments we have to offer:

\$7 per front foot for 750 feet in the Flower Garden Addition.

\$4 " " 500 " " Hershfield Addition.

\$12 " " 200 " " Grand Avenue Addition.

400 front feet in Beattie addition.

\$200 per acre for 100 acres near city limits.

1 new dwelling on Blake Street.

2 new dwellings on Eighth avenue.

8 new dwellings on Ninth avenue.

An Old Faro Dealer Who Says There is No Money in "Bucking the Tiger."

The Experience of a Preacher Bounced Out of a Thousand Dollars Not Strange.

Righting a Friend's Wrongs and Getting the Worst of the Deal—Three Funny Plays.

New York Tribune: "It is not so remarkable as people seem to think that an unsophisticated minister of the gospel should have been defrauded of \$1,000 or a faro 'charmer,' as was done in the case of the Rev. George H. Chappell a few weeks ago in this city," said a professional gambler the other day, in reply to an "innocent" who had asked for information, for literary purposes, about "ways and means" of the dark and tricks that are vain. "As a matter of fact," he went on, "the scheme was one that rarely fails to work in any case. As old and experienced a gambler as I am myself, I have been caught in the same way and for three times as much money as was lost by the Rev. Mr. Chappell. A few years ago I was one of the dealers in a faro bank up town, and an acquaintance whom I liked very much was dealer in a similar bank in the next block. Both were reputed to be and undoubtedly were 'square' gamblers. The proprietor of the game my friend dealt for, however, was known to be extremely close and mean in money matters, and everybody disliked him, but, as his game was trustworthy, his place was well patronized.

"I was not surprised one day when my friend came to me and told me that 'Old Nick' (that's the name of the proprietor's name) owed him \$5,000, representing his interest in the game in lieu of a salary, which he refused to pay over. My friend proposed that I should come to his bank and play while he was dealing and he would fix the deck so that I could win out what 'Old Nick' owed him and something over for myself. Being a dealer myself and knowing that a sign from my friend would indicate just how the cards were to run through a deal, I saw that it was possible for me to right my friend's wrongs and make a few hundred out of 'Old Nick.'

"The first night everything seemed to go wrong. I got the sign to play 'single out' and the cards ran 'double out,' and when I played 'double out' they 'singled out.' I lost \$1,000 and then the place as mad as a man as you ever saw. The next day I met my friend, who declared that it was the most astonishing thing he ever heard of, that he had acted squarely all through, and that somebody must have changed the decks in the drawer of the table so that he had used the wrong one. He offered to make my loss good if I did not win out the full stake at the next sitting. He seemed square and I believed him. The next night I played again and lost \$2,000 more, and when I left the place I was crazy mad. I didn't dare say anything there, for it would have hurt me as my own place to have it known that I was in a 'brace' at another man's game. I decided to wait until the next day and give the false friend a thrashing at least.

"The next day, however, the bank was closed and the dealer had skipped. 'Old Nick' had lost money on the races, had grown desperate, had 'plunged' and 'gone broke.' His partner, my friend the dealer, knew that the bank would close and roped me in for a stake to get away with. I was terribly angry, for I had been influenced

almost entirely by my sympathy for my friend and wanted to help him out. "Did I ever get my money back? Well, I should say I did. I was out west two years ago and one night strolled into a game in Kansas City. Just as I was about to buy a stack of chips I noticed my friend sitting in the lookout's chair. He saw me at the same time and motioned to me to come to him. As I approached he drew out a roll of money and said: 'Here's the dust you loaned me some time ago; much obliged, old man.' I counted it and found it correct. Calling another man to the chair, he led me aside and explained that he had been in a desperate strait at the time and had always intended to repay me. He was now prosperous, he said, and making a fortune rapidly. I played at his game all that night and lost just the \$3,000 he had paid me. I felt very queer when I went away, but I felt too cheap to say or do anything. I have come to the conclusion that there's no money in 'bucking the tiger,' unless you are behind the game. I never play in front of table any more. I can't afford it."
